The Mathematical Association of Victoria and The Victorian Association for the Teaching of English have combined to offer primary schools joint membership of the two associations. Drawing on over 150 years combined experience, VATE and the MAV will provide support to primary teachers of English and Mathematics in the transition to the Australian Curriculum.

Membership of TEAM:P entitles primary school teachers to a range of services and benefits offered by the MAV and VATE, without the need to join each association separately. The saving to schools is just one of the attractions of TEAM:P membership.
