

## Level 1

Add a pair of numbers and write the number sentence.

Pick another pair, add them and write the number sentence.

Keep doing this. How many different answers can you get?

## Level 2

Penny has an equal number of brothers and sisters.

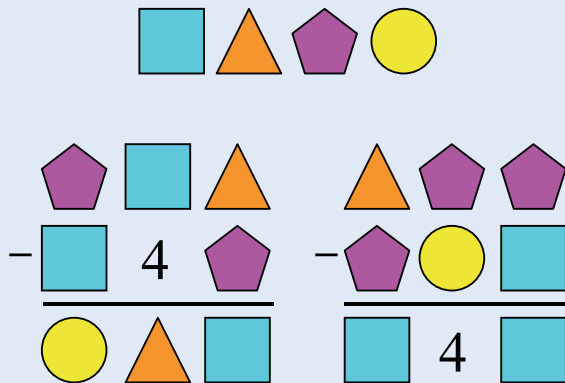

Mark, her older brother, has twice as many sisters as brothers.

How many children are in Penny's family?

## Level 3

The shapes represent the numbers 2, 3, 6 and 9. Match each shape with a number so that these two maths problems work.

## Level 4

If all the orange juice concentrates are the same strength which recipe will have the strongest orange flavour?

- A: 2 cups concentrate, 3 cups water
- B: 5 cups concentrate, 8 cups water
- C: 3 cups concentrate, 4 cups water
- D: 4 cups concentrate, 7 cups water
